Peer review process of Bulletin of Pharmaceutical Science
(Assiut University)

This journal operates a single blind review process.

- All submissions are initially checked by the associate editor concerning the language as well as plagiarism and suitability for the journal scope.
- Submissions that meet the criteria are then typically sent to a minimum of two independent expert reviewers to assess the scientific quality of the paper (maximum time allowed for reviewer response is two weeks).
- The associate editor is responsible for the final decision regarding acceptance or rejection of the articles. The associate editor's decision is final.
